Introduction

Welcome to your Forecaster Chart report.

This report shows the astrological trends influencing your life over a period ranging from days to months or years, depending on the time frame used.

The duration of each trend is indicated by a starting date, an ending date and strongest influence date. Further, an influence may begin before the time frame of the report or end beyond it.

The accuracy of the timing of the forecasts is dependent on the accuracy of the birth time. Be prepared to slide the sequence of trends either forwards or backwards in time if necessary. In some instances, there may be interpretations that repeat themselves. This is due to the cyclical and forward and backward motion of the planets activating points on your chart more than once in the period under review.

As you will find, the forecast interpretations can be positive and / or challenging. Their effects can be experienced either directly personally or through events in the lives of others in the environment. Some trends will be more apparent than others, while others may be subtler. What is most important is how you respond to them.

We trust you will find the report insightful and helpful.

Transits

Before 1 Jul 2022 to 4 October 2022, Transiting Jupiter is passing through your 7th House

Important and influential people can come into your life and have a positive effect in general. Some people establish personal unions during this transit, while others welcome the assistance of experienced professionals, such as consultants, counsellors or advisers. Partnerships formed now are generally successful.

Before 1 Jul 2022 to 28 April 2023, Transiting Saturn is passing through your 5th House

While there is always the need to have fun and to play, the focus of this period is elsewhere. Parties, social events and romance take a back seat now as you become aware of your responsibilities and priorities. Emotional or sexual inhibitions may arise now. This is a good time for gaining skills and experience in creative work or sports.

Before 1 Jul 2022 to 30 July 2022, strongest around 14 July 2022, Transiting Saturn is Sextile your Natal Neptune

Spiritually, this can be a very enriching time, particularly if you are generally quite self-possessed and secure. Positively, this is a good time for being of service to others and concentrating on spiritual development. Your interest in metaphysical subjects and religion may increase now and there is the possibility that you could have psychic experiences. You can make your dreams a reality through hard work and self-discipline now.

Before 1 Jul 2022 to 13 September 2022, strongest around 2 August 2022, Transiting Neptune is Sextile your Natal Venus

This can be a somewhat dreamy and romantic time for you. You may become mildly infatuated with another or someone may have idealistic thoughts about you. Either way, it is more likely to be pleasant and amusing than deceptive or disillusioning. Yet, if other factors support it, spiritual love can occur now. Romance aside, this configuration advantages anyone who is artistically gifted or inclined. Music, the visual arts, painting, dance, theatre and fashion can all flourish during this transit.

5 August 2022 to 7 December 2022, Transiting Pluto is Square your Natal Pluto

You are now at a highly significant juncture in your life, with this period being the initial leg of a personal journey that will see you switch from one phase of life into the next. Transiting Pluto in aspect to its natal position has the effect of bringing major life chapters to close and new ones into being.

Change, during Pluto's transit, is unavoidable. The old order is no longer relevant or sustainable. This transit often compels a confrontation with powerful inner or external forces. Internally, you may be aware of some aspect of your life that you need to look at and change.

There are no half measures with Pluto; any changes that need to be made now will have an all or nothing quality about them. In practical terms, this transit can force people to look long and hard at their relationships, careers or general lifestyles. If you feel anything is wrong or lacking in your life, it is best to instigate reforms now; else they tend to occur

outside of your own control. Acknowledge any pressure you may feel yourself to be under, address its cause and take whatever remedial action is required. Power struggles are not uncommon during this transit.

7 August 2022 to 26 October 2022, strongest around 16 September 2022, Transiting Neptune is Square your Natal Neptune

This transit equates to one of the so-called astrological mid-life crisis phases. This is a time of soul-searching, of personal questioning and of determining to what extent you have fulfilled your dreams thus far.

You could possibly face a "crisis of meaning"; with the ideals you've shaped your life upon going under the microscope for evaluation. The inclination now may be to look to pursuing new ideals - from which a sense of greater purpose can be experienced. As nothing is completely certain at this time, try to avoid making any major decisions or commitments until this transit has passed.

You may also be feeling quite vulnerable at the moment. Should you encounter pressure from external sources, sensing your vulnerability, stay firm in your resolve and maintain your belief in yourself. As this is a potentially confusing period, it is best to avoid stimulants and intoxicants now.

5 September 2022 to 21 September 2022, strongest around 13 September 2022, Transiting Jupiter is Trine your Natal Mercury

Your thinking will be positive and optimistic. It is an excellent time for making long-term plans and decisions. Business matters should go well, because your ability to negotiate with others is easier now than at other times. Also, buying and selling, in any capacity, are well-aspected.

Short trips or long-distance travel tend to be relatively free of difficulties and international contacts can be successfully established. It is also an excellent time to smooth over any communication difficulties you may have with others. This could be a good time to change jobs or apply for a new job, especially in areas related to communication, computing, language, commerce or law.

6 September 2022 to 6 December 2022, strongest around 24 September 2022 and 20 November 2022, Transiting Saturn is Trine your Natal Saturn

Unless there are other stronger transits occurring now, this can be an excellent period for sorting out your priorities and making your life as stable and secure as possible. Long-term objectives, which mature over time, can be started during this period and any projects that require patience and perseverance will succeed now.

7 September 2022 to 21 February 2023, strongest around 15 October 2022 and 20 January 2023, Transiting Neptune is Opposition your Natal Mars

During this period, you can expect to experience difficulties achieving your objectives, because your energies and self-motivation are lower than usual. In fact, under this influence you will often feel quite tired and powerless.

Physically, your body is unusually prone to infection at this time, so increased consideration to your health is advisable. Mars, in your horoscope, represents the force

that enables you to actively go after what you want in life. It is your ego-drive, competitive spirit, willpower and vigour.

Neptune, on the other hand, is associated with the sensitive, illusionary, yielding and drifting side of your nature. It also represents chaos, deception and vagueness. Under Neptune's influence, Mars cannot act decisively or effectively. Consequently, you feel weakened and ineffectual. This can lead to frustration and a misdirecting of your vital energies.

This is not a good time to start a new enterprise, expand a business or take on a challenge, because you will not have the vitality required for total success. Ideally, new sexual liaisons should not be initiated now, as there is a risk of deception, unreliability and, in certain circumstances, infection. Guard against being exploited.

11 September 2022 to 17 February 2023, strongest around 20 October 2022 and 15 January 2023, Transiting Neptune is Trine your Natal Moon's North Node

This can be a good time for forming unions with spiritually inclined or artistic and creative people. However, you need to be discriminating in your choice of company. There is a risk from associating with dreamy and unreliable people.

25 September 2022 to 10 October 2022, strongest around 2 October 2022, Transiting Jupiter is Square your Natal Midheaven

At this time, you have the potential to make progress in your career or in some other area of personal significance.

By displaying a confident and optimistic attitude, you attract the attention of those who can help you advance in life. If other factors support it, you may receive some form of acknowledgement in your profession, e.g. a promotion or pay rise. Whatever your character, you are likely to feel more ambitious than usual now.

However, you need to take care that you don't over-estimate yourself or your abilities, because getting out of depth could lead to a reversal of fortune.

26 September 2022 to 12 October 2022, strongest around 4 October 2022, Transiting Jupiter is Opposition your Natal Ascendant

During this period, your personal and professional relationships should take a noticeable turn for the better. You are more open to the influence of others now and people will seem favourably disposed towards you.

There are opportunities for joint endeavours, which will prove to be mutually beneficial in the long run. If other factors in your chart support it, you could establish an important personal relationship under this influence.

4 October 2022 to 11 January 2023, Transiting Jupiter is passing through your 6th House

During this transit, your focus will be on succeeding in your work and improving your overall health and fitness. Your relations with your co-workers or employees should be relatively good now and, in general, you should enjoy your work throughout this period.

9 October 2022 to 28 October 2022, strongest around 18 October 2022, Transiting Jupiter is Trine your Natal Uranus

This is an excellent transit for making positive changes in your life and the lives of those around you. Your mind is open to the idea of experimentation and discovery; consequently you could travel, start a new course of study or rally support for a cause. You could use this period for learning something new, such as a foreign language or a useful skill. Your powers of comprehension are accentuated now, enabling you to understand things more quickly than usual.

24 October 2022 to 28 October 2022, Transiting Moon's North Node is Square your Natal Moon

During this period, you will strive to establish emotional contact with others. Women, in particular, can be influential in your life at this time. Family ties may dominate your thinking now - there could be a coming together of family members or a drifting apart. Spiritual unions can be made or broken now.

9 January 2023 to 13 March 2023, strongest around 14 February 2023, Transiting Neptune is Square your Natal Neptune

This transit equates to one of the so-called astrological mid-life crisis phases. This is a time of soul-searching, of personal questioning and of determining to what extent you have fulfilled your dreams thus far.

You could possibly face a "crisis of meaning"; with the ideals you've shaped your life upon going under the microscope for evaluation. The inclination now may be to look to pursuing new ideals - from which a sense of greater purpose can be experienced.

As nothing is completely certain at this time, try to avoid making any major decisions or commitments until this transit has passed. You may also be feeling quite vulnerable at the moment. Should you encounter pressure from external sources, sensing your vulnerability, stay firm in your resolve and maintain your belief in yourself. As this is a potentially confusing period, it is best to avoid stimulants and intoxicants now.

11 January 2023 to 18 May 2023, Transiting Jupiter is passing through your 7th House

Important and influential people can come into your life and have a positive effect in general. Some people establish personal unions during this transit, while others welcome the assistance of experienced professionals, such as consultants, counsellors or advisers. Partnerships formed now are generally successful.

22 January 2023 to 2 February 2023, strongest around 28 January 2023, Transiting Jupiter is Trine your Natal Mercury

Your thinking will be positive and optimistic. It is an excellent time for making long-term plans and decisions. Business matters should go well, because your ability to negotiate with others is easier now than at other times.

Also, buying and selling, in any capacity, are well-aspected. Short trips or long-distance travel tend to be relatively free of difficulties and international contacts can be successfully established. It is also an excellent time to smooth over any communication difficulties you may have with others.

24 January 2023 to 10 February 2023, strongest around 1 February 2023, Transiting Saturn is Trine your Natal Pluto

This can be an excellent configuration for research and study, because you have greater powers of concentration and the tenacity to apply yourself to intellectually demanding work. You are very clear about your objectives and what you need to do to reach them. Your successes during this period equate to the efforts you expend and the sacrifices you're prepared to endure.

15 February 2023 to 25 February 2023, strongest around 20 February 2023, Transiting Jupiter is Trine your Natal Sun

This should be a comparatively relaxed and harmonious period for you. Whatever you want to achieve at this time you will. However, your successes now are equivalent to the efforts you put in.

A problem is that you may be inclined to just kick back and enjoy the feeling of contentment associated with this transit. Travel, business or financial matters can all be beneficial now, if other factors support these. Also, you are presently well-aspected for making contacts with people who can help you socially or professionally.

16 February 2023 to 11 April 2023, strongest around 15 March 2023, Transiting Neptune is Sextile your Natal Venus

This can be a somewhat dreamy and romantic time for you. You may become mildly infatuated with another or someone may have idealistic thoughts about you. Either way, it is more likely to be pleasant and amusing than deceptive or disillusioning.

Yet, if other factors support it, spiritual love can occur now. Romance aside, this configuration advantages anyone who is artistically gifted or inclined. Music, the visual arts, painting, dance, theatre and fashion can all flourish during this transit.

26 February 2023 to 7 March 2023, strongest around 3 March 2023, Transiting Jupiter is Sextile your Natal Moon

The general effects of this transit are unlikely to produce much in the way of concrete events, but you are likely to have a general feeling of well-being during its passage. Perhaps the best way to get the most out of it is to use the period for improving family relations, doing up your home, or travelling.

Business activity should be relatively free of problems, providing there aren't other more powerful transits from the stronger planets to contend with. Women can be beneficial in your life at present.

7 March 2023 to 24 March 2023, strongest around 15 March 2023, Transiting Saturn is Square your Natal Uranus

This can be an especially tense and stressful time for you, with your nerves being stretched to their limits. It may seem that others or circumstances are preventing you from doing whatever you want to do. Just about every assertion of your independence meets resistance.

Under certain circumstances, you may have to battle against restrictive forces such as authority figures or bureaucratic red tape in order to move forward. However, this does not include breaking the laws of the land or moral codes, because you'll only get caught. You may want to break out of old patterns and have new experiences, but something holds you back. It could be a fear of stepping outside of your safety zone, or it could be someone wanting to keep you in check for some reason.

You can be unusually reactive at this time and prone to sudden and unexpected outbursts. You need to watch your stress levels, as too much stress now could negatively impact on your health. Also, guard against accident or injury proneness.

7 March 2023 to 25 March 2023, strongest around 16 March 2023, Transiting Saturn is Trine your Natal Jupiter

You have the opportunity for careful and sustainable growth in a number of areas of life now. Notably, this can be a good time for expanding a business, applying yourself to intellectual, spiritual or political work, or investing in property or real estate. You have a good balance between caution and optimism, so you are unlikely to over-extend yourself either financially or physically.

22 March 2023 to 12 June 2023, Transiting Pluto is Sextile your Natal Uranus

During this period, you feel compelled to make significant changes in your life. You are more willing than usual now to try different things and to explore the creative side of your nature. You may be quite surprised at how much change takes place in your life now. This is a good time to create new living conditions.

23 March 2023 to 12 April 2023, strongest around 1 April 2023, Transiting Saturn is Trine your Natal Midheaven

During this period, you are ambitious for professional success and you should find that your career is quite satisfying at the moment, providing there aren't other stronger transits happening that may contradict this. You may be given extra responsibility at work and you should be able to handle it well. People in authority or power will possibly be very helpful to you now; there may be someone who'd like to see you get ahead in life.

23 March 2023 to 10 June 2023, Transiting Pluto is Square your Natal Jupiter

During this transit, there is tremendous potential for gain or loss - depending on your make up. If you over-estimate your powers and capabilities you can risk losses or confrontations

with authority figures. However, if you strive to make improvements in your own and others' lives, this can be a time of great achievement. Your outlooks on life and beliefs are changing and being replaced with new ones now. Intellectually, this is an excellent time for embarking upon a course of higher learning or study, because you can become passionate about a subject.

Less positively, you could find yourself in conflict with the laws of the land through arrogance or provocative conduct. Under certain conditions, this transit can signify legal problems. Try and keep a sense of perspective about things now, and resist any temptation to over-reach yourself or stretch your resources to the limit. Keep something in reserve and avoid burning your bridges.

28 March 2023 to 5 April 2023, strongest around 1 April 2023, Transiting Jupiter is Opposition your Natal Saturn

This is one of the more testing transits of Jupiter, but it is by no means unmanageable. Advancement in life at this time seems slow or cumbersome, and everything you want to achieve appears to take a lot more effort than usual.

Any progress you make comes at a price and it will probably feel that life is moving along at the rate of three steps forward and two steps back. Also, there can be temporary setbacks and possible financial constraints or worries. At an inner level, you are likely to feel discontented, for no apparent reason, and your self-confidence may be temporarily dented.

However, as you will discover, this state of affairs will not last for long. The best way for you to deal with things now is with patience and to persevere in your endeavours.

Professionally, if your work is unsatisfying, you may decide to change jobs, but only take such a step if you have something better to go to. Buying and selling property is often successful with this transit, providing you don't over-extend yourself financially.

13 April 2023 to 21 April 2023, strongest around 17 April 2023, Transiting Jupiter is Square your Natal Moon's North Node

This is one of the best periods for making contact with people, either for social or professional purposes.

Socially, you will get along better with others than usual, as you will be more inclined to extend yourself and meet people half way. Important relationships may be established now. Alternatively, there can be difficulties in associations through tactlessness or inconsiderate behaviour.

17 April 2023 to 25 April 2023, strongest around 21 April 2023, Transiting Jupiter is Trine your Natal Neptune

Your inner and spiritual life is enhanced now; more so than at just about any other time. You have a great wealth of feeling and compassion, coupled with a deep and sincere desire to look after or help those in need.

Your interest in metaphysical subjects is likely to grow now and you may experience unusual insights. If you are in any way musical, artistic or creative, you can expect your

powers of inspiration and imagination to get a boost now. Travel under this influence is usually beneficial.

18 April 2023 to 17 May 2023, strongest around 1 May 2023, Transiting Saturn is Square your Natal Mercury

For the duration of this transit your thinking will tend to be serious, realistic and practical. Your mind is not occupied with light and frivolous matters; instead, important issues need to be addressed.

Possibly, you will be inclined to pessimism; certainly, if you have a tendency to worry, you will now. Try to keep a sense of humour and perspective and don't allow yourself to become gloomy. While your prospects may seem restricted now, this is only a temporary state of affairs.

Other people may seem unreasonable to you now and, possibly, they may challenge or obstruct your ideas or plans. Travelling during this transit could require more effort, as there is the likelihood of delays or irritations of some sort. The positive side of this transit is that your powers of concentration and your ability to sort out your priorities are stronger than usual.

21 April 2023 to 29 April 2023, strongest around 25 April 2023, Transiting Jupiter is Square your Natal Venus

Matters of the heart feature strongly now. You may become the object of someone's romantic desires, or you, in turn, could be smitten with another. Established relationships, too, can go through a period of increased warmth and affection. Alternatively, romance may not feature at all at this time; instead your life becomes a whirl of social engagements or pleasure seeking activities.

You may be inclined to indulge yourself and over-spend on such things as luxury items, fine clothes or beauty products. If you are artistically inclined, this can be a successful creative period for you, with your work being acknowledged and respected by others.

Travel for enjoyment and pleasure is favoured now, if affordable. Less positively, arguments caused by exaggerated expectations, negligence or differences of opinion can mar relationships. There can be conflicts in love.

25 April 2023 to 3 May 2023, strongest around 29 April 2023, Transiting Jupiter is Opposition your Natal Pluto

During this period, you will be aware of a pronounced desire to assert yourself and to get ahead in life - even if it pitches you against the expectations and beliefs of others. You will have strong ambitions at this time, but you need to keep things in perspective; otherwise you could cross swords with people that, for whatever reason, want to keep you in line.

Compulsive behaviour and power plays are common with this transit and you have to be very careful who you take on as an opponent. Those in positions of power, such as bosses or authority figures could make your life difficult if you get out of your depth with them. In extreme circumstances, if you over-estimate yourself or display excessive arrogance, the consequences won't be to your liking.

Also, there can be the tendency to become zealous or obsessive, which can lead to arguments with others or cause you to lose sight of whom or what is important in your life. Positively, you may demonstrate a capacity for leadership and organisation - an ability to step in and take charge of situations.

28 April 2023 to Beyond 6 Jul 2023, Transiting Saturn is passing through your 6th House

During Saturn's transit through this house, your attention will be on your work and health. Regarding work, you can expect increased responsibility, or possibly difficulties with employment. In certain circumstances, there can be exposure to disagreeable experiences at work.

If you employ people, including the services of trades-people, they may be problematic during this period. With respect to your health, make every effort to look after your body properly, because there is the potential to become tired and run down.

16 May 2023 to 25 May 2023, strongest around 20 May 2023, Transiting Jupiter is Opposition your Natal Jupiter

During this period, you will tend to view life more positively and optimistically than usual. Expect your understanding of the world to broaden - this may be experienced through such things as long-distance travel, higher education, or simply by being more outreaching and embracing of life and others.

However, there is a need to caution against extending your scope of activity beyond what you can reasonably manage - or of losing your sense of proportion and perspective. At its best, this transit brings the rewards of hard work commensurate to the amount of energy you put in.

But if you simply sit around enjoying the feelings of well-being it induces, you will have little to show for it after it passes. While this can be a financially prosperous time, you would do well to guard against wasteful or extravagant tendencies. Also, it is not uncommon for some people to get a superiority complex during this transit and end up arguing with others, especially over matters of outlook or philosophy.

18 May 2023 to Beyond 6 Jul 2023, Transiting Jupiter is passing through your 8th House

Other people may help you now by making their resources and contacts available to you. This is one of the best periods to organize loans from banks or other lending institutions. In some circumstances, this transit can bring money through inheritances, legacies or gifts.

21 May 2023 to 25 June 2023, strongest around 17 June 2023, Transiting Moon's North Node is Sextile your Natal Midheaven

There may be the opportunity to make an inner connection with another.

24 May 2023 to 2 June 2023, strongest around 29 May 2023, Transiting Jupiter is Sextile your Natal Midheaven

This is likely to be a pleasant period in your life with respect to social activity and meeting people of good reputation. You could come into contact with influential people, who may be able to assist you in your career or some area of personal significance.

22 June 2023 to Beyond 6 Jul 2023, Transiting Moon's North Node is Opposition your Natal Jupiter

During this period, you have the ability establish harmonious relationships. Alternatively, there can be disharmonious relations with others due to a lack of adaptability or conflicts over matters of outlook.

26 June 2023 to 29 June 2023, Transiting Moon's North Node is Sextile your Natal Midheaven

There may be the opportunity to make an inner connection with another.
